Dear Reader,

“However difficult life may seem, there is always something you can do and succeed at.” ~Stephen Hawking

Stephen Hawking was a brilliant Englishman that contributed to World Sciences, according to google, “theoretical physicist, cosmologist, author and Director of Research at the Centre for Theoretical Cosmology within the University of Cambridge.” Stephen Hawking had a rare disease known as ‘Amyotrophic lateral sclerosis ALS or Lou Gehrig’s disease. Mr. Hawking, despite his crippling disease, lived his life and left a profound legacy, “However difficult life may seem, there is always something you can do and succeed at.” Thank you Mr. Stephen Hawking!
