

Policy 3514: Environmental Safety

Status: ADOPTED

Original Adopted Date: 07/01/2001 | **Last Revised Date:**
05/01/2018 | **Last Reviewed Date:** 05/01/2018

The Governing Board recognizes its obligation to provide a safe and healthy environment at school facilities for students, staff, and community members. The Superintendent or designee shall regularly assess school facilities to identify environmental health risks and shall develop strategies to prevent and/or mitigate environmental hazards. He/she shall consider the proven effectiveness of various options, anticipated short-term and long-term costs and/or savings to the district, and the potential impact on staff and students, including the impact on student achievement and attendance.

Such strategies shall focus on maximizing healthy indoor air quality; monitoring the quality of outdoor air and adjusting outdoor activities as necessary; reducing exposure to vehicle emissions; minimizing exposure to lead and mercury; reducing the risk of unsafe drinking water; inspecting and properly abating asbestos; appropriately storing, using, and disposing of potentially hazardous substances; using effective least toxic pest management practices; reducing the risk of foodborne illness; and addressing any other environmental hazards identified during facilities inspections.

In developing strategies to promote healthy school environments, the Superintendent or designee may consult and collaborate with local environmental protection agencies, health agencies, water boards, and other community organizations.

The Superintendent or designee shall provide the district's maintenance and facilities staff, bus drivers, food services staff, teachers, and other staff as appropriate with professional development regarding their responsibilities in implementing strategies to improve and maintain environmentally safe and healthy schools.

The Superintendent or designee shall notify the Board, staff, parents/guardians, students, and/or governmental agencies, as appropriate, if an environmental hazard is discovered at a school site. The notification shall provide information about the district's actions to remedy the hazard and may recommend health screening of staff and students.

State	Description
13 CCR 2025	Retrofitting of diesel school buses
13 CCR 2480	Vehicle idling; limitations
17 CCR 35001-36100	Lead abatement services
22 CCR 64670-64672.6	Lead and copper in drinking water
22 CCR 64673-64674	Water System Requirements
22 CCR 64675-64679	Monitoring for Lead and Copper
24 CCR 915.1-915.7	California Building Standards Code; carbon monoxide devices
5 CCR 14010	Procedure for site acquisition
8 CCR 1528-1537	Construction safety orders; exposure to hazards
8 CCR 337-339	Hazardous substances list
8 CCR 340-340.2	Occupational safety and health; rights of employees
8 CCR 5139-5223	Control of hazardous substances
