

Policy 5131.62: Tobacco

Status: ADOPTED

Original Adopted Date: 03/01/2011 | **Last Revised Date:** 07/01/2016 | **Last Reviewed Date:** 07/01/2016

The Governing Board recognizes the serious health risks presented by tobacco use and desires to ensure that, through adoption of consistent policies, district students are made aware of those risks and, to the extent possible, protected from them. The Superintendent or designee shall establish a coordinated school health system which includes a comprehensive behavioral health education component that teaches students the knowledge, skills, and attitudes they need in order to lead healthy lives and avoid high-risk behaviors, such as tobacco use.

The Superintendent or designee shall provide prevention, intervention, and cessation education, information, activities, and/or referrals to district students and shall ensure consistent enforcement of district policies prohibiting student possession and use of tobacco products.

Prohibition Against Tobacco Use

Students shall not possess, smoke, or use tobacco or any product containing tobacco or nicotine while on campus, while attending school-sponsored activities, or while under the supervision and control of district employees. (Education Code 48900, 48901)

Smoking means inhaling, exhaling, burning, or carrying of any lighted or heated cigar, cigarette, pipe, tobacco, or plant product intended for inhalation, whether natural or synthetic, in any manner or form, and includes the use of an electronic smoking device that creates aerosol or vapor or of any oral smoking device for the purpose of circumventing the prohibition of smoking. (Business and Professions Code 22950.5; Education Code 48901)

Tobacco products include: (Business and Professions Code 22950.5; Education Code 48901)

1. A product containing, made, or derived from tobacco or nicotine that is intended for human consumption, whether smoked, heated, chewed, absorbed, dissolved, inhaled, snorted, sniffed, or ingested by any other means, including, but not limited to, cigarettes, cigars, little cigars, chewing tobacco, pipe tobacco, or snuff
2. An electronic device that delivers nicotine or other vaporized liquids to the person inhaling from the device, including, but not limited to, an electronic cigarette, cigar, pipe, or hookah
3. Any component, part, or accessory of a tobacco product, whether or not sold separately

These prohibitions do not apply to a student's possession or use of his/her own prescription products. However, student possession or use of prescription products in school shall be subject to the district's policy and regulation for addressing the administration of medications on campus. (Education Code 48900)

Prevention Instruction

The district shall provide developmentally appropriate tobacco-use prevention instruction for

students at selected grade levels from K-12 pursuant to Education Code 51202. Such instruction shall be aligned with state content standards and the state curriculum framework for health education and with any requirements of state and/or federal grant programs in which the district participates.

Intervention/Cessation Services

The district may provide or refer students to counseling, intensive education, and other intervention services to assist in the cessation of tobacco use. Such intervention services shall be provided as an alternative to suspension for tobacco possession.

Program Planning

The district's tobacco-use prevention and intervention program shall be based on an assessment of tobacco-use problems in district schools and the community, an examination of existing services and activities in the community, and a determination of high-risk student populations that are most in need of district services.

The Superintendent or designee shall coordinate with the local health department and county office of education in program planning and implementation. He/she may establish an advisory council including students, parents/guardians, district staff, representatives of the local health department and community organizations, law enforcement professionals, and/or others with demonstrated expertise in tobacco prevention and cessation.

The Superintendent or designee also shall coordinate the district's tobacco-use prevention and intervention program with other district efforts to reduce students' use of illegal substances and to promote student wellness.

The Superintendent or designee shall select tobacco-use prevention programs based on the model program designs identified by the California Department of Education (CDE) and may adapt the model to meet district needs. (Health and Safety Code 104420)

The Superintendent or designee shall not accept for distribution any materials or advertisements that promote the use or sale of tobacco products. He/she also shall not accept tobacco-use prevention or intervention funds or materials from the tobacco industry or from any entity which is known to have received funding from the tobacco industry.

Program Evaluation

To evaluate the effectiveness of the district's program and ensure accountability, the Superintendent or designee shall biennially administer the California Healthy Kids Survey or other appropriate student survey at selected grade levels in order to assess student attitudes toward tobacco and student use of tobacco. He/she also shall annually report to the Board, and to the CDE if required, the data specified in Health and Safety Code 104450.

The results of program evaluations shall be used to refine program goals and objectives and make changes as needed to strengthen program implementation.
