

Regulation 6161.1: Selection And Evaluation Of Instructional Materials Status: ADOPTED

Original Adopted Date: 11/01/2010 | **Last Revised Date:** 10/01/2023 | **Last Reviewed Date:** 10/01/2023

Review Process

The district's review process for evaluating instructional materials shall involve teachers in a substantial manner and shall encourage the participation of parents/guardians and community members in accordance with Education Code 60002. The review process may also involve administrators, other staff who have subject-matter expertise, and students as appropriate. The Superintendent or designee shall seek input from stakeholders with diverse backgrounds and perspectives.

If the district is considering the use of instructional materials for grades K-8 that have not been adopted by the State Board of Education (SBE), the Superintendent or designee shall ensure that a majority of the participants in the district's review process are classroom teachers who are assigned to the subject area or grade level of the materials. (Education Code 60210)

The Superintendent or designee may establish an advisory committee to conduct the review of instructional materials.

The Superintendent or designee shall present to the Governing Board recommendations for instructional materials and documentation that supports the recommendations.

All recommended instructional materials shall be available for public inspection at the district office.

When possible, the district may pilot instructional materials in a representative sample of classrooms for a specified period of time during a school year, in order to determine the extent to which the materials support the district's curricular goals and academic standards, and accurately reflect and value society's diversity. Feedback from teachers piloting the materials shall be made available to the Board before the materials are adopted.

Criteria for Selection and Adoption of Instructional Materials

In recommending instructional materials for adoption by the Board, the Superintendent or designee shall ensure that the materials:

1. Are aligned to the content standards adopted by SBE and consistent with the content and cycles of the curriculum framework adopted by SBE

For grades K-8, only instructional materials on the list of materials adopted by SBE and/or other instructional materials that have not been adopted by SBE but are aligned with the state academic content standards or the Common Core State Standards may be recommended for selection. (Education Code 60200, 60210)

For grades 9-12, instructional materials in history-social science, mathematics, English/language arts, and science shall be reviewed using a standards map in order to determine the extent to which the materials are aligned to state academic content standards.

2. Do not reflect adversely upon persons because of any characteristic specified in law and Board Policy 0410 - Nondiscrimination in District Programs and Activities, nor contain any sectarian or denominational doctrine or propaganda contrary to law (Education Code 51501, 60044)
